

Dancer Ethos

Eight Characteristics of Supersonic Dancers

We:

- 1. Are community-health-focused. We wear well-fitting masks and will gently remind someone if a mask is missing.**
- 2. Are aware of the community on the floor: dance with an awareness of one's movements, one's frame, the proper giving of weight, and the space within the hall.**
- 3. Dance with various partners regardless of age, body type, and gender expression.**
- 4. Are role models of consensual behavior on the dance floor.**
- 5. Swap roles or engage in other play with the utmost regard for the integrity of the dance and the line and with partner consent.**
- 6. Take time and effort to appreciate the talent of the callers, the bands, and the sound crew.**
- 7. Avoid pre-booking and enjoy the spontaneity of seeking a new partner for each dance for various experiences.**
- 8. Ensure our clothes and selves are 100% fragrance-free while attending Supersonic.**
